

Partner in Safety Mentoring Program

a. Objectives of the Partner in Safety Program

Our Partner in Safety Program is based on mentoring our client in developing and implementing a culture of safety with a health and safety program. We believe our role is to provide support and facilitate our client to reach their goal of a healthy and safe work environment.

We offer our client:

- Customized health and safety services that assist them in meeting their due diligence, legal obligations, contractual obligations and moral obligations;
- Fiscally responsible solutions by assisting our Partners to reduce the long-term cost of occupational safety within their organization;
- Preferred times and services on a regular basis at discounted rates;
- A partnership based on site-specific needs, corporate needs, and/or project needs; and
- A dedicated safety professional from our team.

b. Services in the Partner in Safety Program

The program provides our Partner with a variety of monthly, site-specific, customized services. Monthly services include but are not limited to:

- Site specific monthly safety inspections;
- Hazard management for project or specific job task;
- Safe work procedures;
- Occupational health and safety programs;
- Site specific or general occupational health and safety program reviews; and
- If the Partner is or plans to become a Certificate of Recognition (COR) member, we can assist them in preparing for internal and external audits and in the implementation of a corrective plan.

c. Additional Discounts in the Partner in Safety Program

We provide additional discounts to our Partner if any of the following services are required:

- Permanent or project oriented Occupational First Aid Attendants (OFA) and Construction Safety Officers (CSO);
- Training programs; and
- Emergency call out fee.
